

## **SAVE** **WORTH WAY!**

**Mid Sussex District Council have proposed plans to turn the Worth Way & St Margaret's Loop into a 62ft wide 'relief' road to link an inappropriate and unwelcome large scale housing development with East Grinstead town centre.**

**If we allow this action to go ahead two vitally important wildlife corridors with the biodiversity they sustain will be eradicated, along with every single tree. With one fall of the construction axe this much valued commuter and recreational path will be lost forever to make way for "relief" road plans that will actually create more rat-running and deliver significantly more traffic *into* the town centre.**

**YOU MUST ACT TO PREVENT THIS.**

**Write to Mid Sussex District Council before July 3<sup>rd</sup>**

**TOGETHER YOU CAN HELP US TO OPPOSE THIS!**
